

ROMAN BELYSH

Myaushruma

3D PRODUCT DESIGNER

- I develop concepts for physical products from ideas, sketches and references.
- I create 3D models and prepare them for printing, testing and sales.
- Over 10 years of 3D experience.

**Precision in details,
attention to quality
and drive for the best
result.**

WHAT I DO

CONCEPT & DESIGN

Product concept and design development.

3D MODELING

3D modeling in Blender.

PRINT PREPARATION

Preparing models for 3D printing.

MODEL OPTIMIZATION

Refinement and optimization of existing models.

VISUALIZATION

Product visualization and presentation.

WORK PROCESS

Idea
and requirements

Concept

3D model

Approval

Print
preparation

PROJECT STAGES

- I study the product idea and requirements.
- I develop the concept and choose the optimal solution.
- I create and refine the 3D model.
- I align the final result.
- I prepare files for 3D printing.

TOOLS

Blender

Modeling
and visualization

Bambu Studio

Model preparation
for 3D printing

Photoshop

Editing
and presentation

Illustrator

Vector graphics

**I use artificial
intelligence in my work.**
